Earth Chakra Integration

Seeing that we have a deep connection to the Earth and that what we produce can have a huge impact on our lives when we share our talents with the support of the Earth Chakra. Creating a product from the Earth's resources, whether it be through crystals, crafts, book, or fairy houses. This is a vital aspect of our wholeness. Allowing others to touch, hold and have a piece of ourselves to then integrate with our unique talents and abilities, is what this week is all about.

Producing a Product

Set a timer for at least 5 minutes. Take that time to write down all of the products, offerings and services you feel you are being guided to share. Take the time to see how the products fit together and how you can create a space to share these.

Services:

Tangible Products:

What resources from the Earth are these connected with?

How can you share these products with those you are serving?

Some Ideas: farmers markets, fairs, Facebook, Etsy, yoga studios, health food stores, Music Events

If you feel disconnected from the Earth or ungrounded, booking a personal session or attending the in person Retreats will be a vital component to healing the Earth chakra. If you are interested in a Plant Potion from Magical Mothering, please visit <https://magicalmothering.com/shop>
